

Date: 9th Feb 2010

eBrandz have helped enormously with the promotion of our web site. We are a Indian Stock Market Consultancy provider with office in Ludhiana, Punjab. Working with the professionals at eBrandz we planned a marketing campaign that eBrandz has been implementing most successfully.

SirfPaisa.com has established itself as one of the premier platforms for Analysts especially technical analysts of Indian share market. It is one of the few sites providing research and information on Indian capital markets mainly based on Technical Analysis and enjoys a strong reputation amongst investors, brokers and researchers. We Provide intraday cash market analysis, Future stocks, Nifty future, Calls, Puts, Options, Short term delivery calls, BTST, STBT, Jackpot calls etc. When we approached eBrandz we were aware that our web site was not easily found by many potential clients. This has now changed and clients find us and our prime services typically on the first page of a Google by PPC.

eBrandz suggested us a new web page and optimized it for the search engines while managing our PPC campaign. We have seen incredible results in a very short period of time, and I strongly recommend eBrandz. Seeing our web site's rapid growth on the major search engines due to successful SEO has been very exciting, and eBrandz has managed our PPC campaigns to suit our ever-changing business needs. They understands our competitive environment and works closely with us to insure that our web site's growth continues. The eBrandz team has been readily accessible, responsive and thorough - our overall experience from day 1 has been excellent! Their customer service is wonderful!

Best Regards,

Randhir Sharma (Chief Executive)
