

Date: February 5, 2008

eBrandz have been a very professional organization to deal with from the moment we signed up. They had a plan before they began with timelines and all the work to date has been completed thoroughly and on time. The entire process has been very smooth so far. eBrandz has guided us from the beginning including identifying the right affiliate network to use, developing affiliate page content and even helping us with banner development.

Now that we are in the affiliate sign-up phase, eBrandz qualifies any affiliate interested in signing up with us and is also working on recruiting new affiliates. Within a 10 day period, eBrandz has signed up 19 affiliates and is working hard towards signing up more.

I would definitely recommend eBrandz as an affiliate management service provider. They take over the management of your program and work with you to tailor it to meet your requirements. They are always available and provide timely reports that summarize progress of the affiliate network development program.

A handwritten signature in black ink, appearing to read 'S. Sri Sethuram', is written in a cursive style.

Thank you,
Sri Sethuram
