Romantic Future is an international introduction company allowing foreigners the opportunity to meet Czech and Slovak women for serious relationships and vice versa. A friend who has a company in Prague, where I am based, recommended eBrandz. His company is www.rentego.com.

I haven't had previous experience with SEO's - I signed up on recommendation of Rentego. Due to their recommendation, I did not have any hesitation while signing up with eBrandz.

I am content with the partnership to this point. I started seeing improvement in rankings and traffic in 3 months. We are getting more enquiries from internet now than earlier in the partnership and before- so yes it is at this time a positive partnership.

I would without hesitation recommend eBrandz to other companies.
