Beach Mart based in, Jacksonville, Florida is an online retailer of high quality beach accessories. The company progresses around its customers, who play an indispensable role in shaping every aspect of the products offered by us.

When researching for PPC companies on an internet retailer guide, we were looking for experienced, result oriented companies. Luckily, we found eBrandz via generic search on Google. When I first spoke to eBrandz, I was a bit apprehensive regarding legal recourse. But after a while my hesitation start fading and now I knew my business is in safe hands. Success through the Internet is paramount to our business growth and I now know that I can leave this side of the business to the people who really know what they're doing.

Their communication is second to none and their knowledge of the market place is excellent. Quick response time and detailed weekly report enabled us to stay informed every step of the way. It's like having an in house team of marketers at my disposal. Within a very short time span we had a solid campaign up and running and the returns were immediate.

It would be unfair on my part if I do not applaud the professional and diligent team at eBrandz who took up the campaign as a challenge and did absolute justice to it... How else would we have enjoyed the desired result within such a short period of time!!

I am looking to build my future PPC campaigns with eBrandz in mind. I would have no hesitation to recommend them to anyone. Keep it up guys...

Sincerely,
Vin Patel
Principal
