

May 30, 2006

I have been working with eBrandz for about 18 months. They handle all of my SEO needs and also manage my pay-per-click campaigns on Yahoo and Google. I am extremely happy with their level of professionalism and the results they have helped us achieve.

We are in the mortgage sector which is one of the most competitive spaces on the internet in terms of Search Engine Marketing. Despite the heavy competition we have achieved many number one listings and dozens of first page placements for high traffic words and terms on all of the major search engines.

eBrandz has very reasonable rates and offers a great value. I would highly recommend them.
