

Date:14-5-09

Mantaraya is a leading Colombian tour operator that plans, organizes and executes every aspect of a vacation in Colombia. We take the hassles out of planning and booking trips to Colombia. All the Colombia tour packages provided by us have been hand picked from the best tour operators and ensure that you get the best possible experience of Colombian hospitality.

With an increasing number of vacationers using the world wide web for every aspect of planning the tour, right from hotel bookings to car rentals and air bookings to accommodation facilities, we recognized the need to improve our organic positioning within the major search engines. We were looking for an experienced and result oriented company and luckily, came across eBrandz via a natural web search. We initially signed up with them for SEO services. We were really impressed with their knowledge and expertise and finally decided to engage eBrandz to plan and manage our Pay-Per-Click campaign.

They are highly responsive to requests, constantly answer all the queries and delivered reports in a timely fashion. We had a great experience and I am looking for a long term relationship with eBrandz in the years to come. Their highly professional service ensure exceedingly targeted and focussed campaign. With in a fortnight we saw great improvement in traffic and enquiries. We have witnessed phenomenal increase in the number of weekly request received by us and a large number of leads have even led to sales. I have already recommended eBrandz to my friends in Colombia.

Regards,

Camilo Gomez
Business Director
