

PICK N' PERSONALIZE

Date: April 18, 2007

Pick N' Personalize is an online gift store that has been in business for over 2 years, offering finest selection of unique and elegant gifts for various occasion and events with a caring personal touch and have been proactive in moving with the times in keeping up with latest trends.

While we were performing our search for a reliable, attentive PPC company to manage our website on various search engines -- Luckily we found eBrandz on the search engine backed by years of experience and an impressive track record and thought their price was reasonable too and it wouldn't hurt to try them out. And thank god we gave them a try. The results were absolutely amazing! Their ideas of managing pay per click campaigns have certainly opened our eyes to the possibilities of increasing our bottom line - sales. eBrandz managed our campaign frequently and have been working very closely with us to optimize my campaign.

eBrandz PPC Management's service and support have been superior. Their personalized service and highest level of professionalism allowed our company's sale to go from 2k a day to 6k a day in less than 3 months.

We are really impressed with eBrandz's live communication! The fact that their head office is based overseas has not affected our day to day dealings. We were able to contact eBrandz via Skype instant messenger which makes communication very easy. And their representatives are always available to answer my questions and are very proactive in doing further keyword research for our ad campaigns. The team is always very responsive to our questions. May be they are working for multiple customers, but they wouldn't loose focus of your project. It seems as if they're working solely for you. Besides this we were regularly updated via reports that are sent out every week which allows us to fine-tune our campaign frequently. Very good!

Although they're based in IND, we don't feel that we're working with a foreign company since they're always available to answer my concern and also have a very knowledgeable representative that is based in New York.

We have been very impressed from day one with eBrandz's approach to our pay per click campaign needs giving us confidence and satisfaction. Their service is commendable and I have recommended eBrandz to couple of my close friends. I have used other US based PPC companies and none of them have come close to what eBrandz has delivered.

Best Regards,

Brian Lam
