Our first campaign with eBrandz was for our self defense products eCommerce company www.safetygearhq.com. We searched for an SEO company in the search engines using the terms 'search engine optimization'. eBrandz was ranking very well for these terms in Yahoo and Google search engines. Due to their own good rankings and attractive SEO packages (which very priced much less than many other SEO companies) we selected eBrandz.

Being from the U.S., I did not have any problems working with an Indian company. eBrandz was very professional and communicated well with us. eBrandz always responded to our questions in a timely manner and followed their schedule as well as provided excellent reports to keep us informed of their progress.

We started seeing improvements in rankings in the first two or three weeks, and traffic improvements came shortly thereafter.

The rankings we achieved in our campaign with eBrandz helped us improve our traffic and sales without having to spend a ton of money on advertising. Hence eBrandz definitely helped us increase our business.

I have already recommended eBrandz to several other companies and people that I know because I believe that they provide a great service and their SEO optimization skills are extremely effective. They are also about to start a new campaign for our free funny videos website www.monkeybriefs.com.
